Chamber Business Spotlight

One of the first questions people ask me is, “What is a Virtual Assistant?” The simple answer is an Administrative Assistant that works remotely! I serve an average of 5 to 6 clients a week. One minute I can be making reservations for brunch in The Big Apple and the next I’m taking registrations for ballroom competitions in Tupelo, Mississippi over the phone. I serve clients as far away as San Francisco, CA and as near as Steubenville, Ohio.

Personal Assisting – Scheduling appointments, online shopping, and helping people organize their lives.

WordPress – using WordPress I can update your brand, change out pictures and copy on websites and build Ecommerce platforms.

QuickBooks Online and Bookkeeping – Keep track of expenses, invoicing and sending out reports.

Business Support – I never met a spreadsheet I didn’t like! I love organizing people’s money and time. I can show you how to spend your advertising dollars wisely as well as research your competition.

Event Support – Answer incoming calls as a live assistant using Tresta or OpenPhone apps. Whether you are hosting a virtual event or a live event, someone has to be there to take credit card information and answer questions.
