

March 2022

Bin There Dump That, Weirton Dumpsters continues its expansion into Weirton, Steubenville and surrounding communities, impressing customers with its value proposition in residential friendly dumpster service for homeowners performing cleanouts and renovations, and of course contractors performing remodeling, roofing, restorations and the like.

Bin There Dump That, Weirton Dumpsters are all well maintained, clean and green – bins you will be proud to show in any driveway. Their residential friendly dumpsters are designed with the most compact foot-prints found in the industry. All bins are fitted with twin-entry doors for easier, more efficient and safer loading too. And, all Bin There Dump That residential friendly dumpsters arrive with driveway protection boards their Driver (aka "Delivery Expert") sets-down before placement – meaning the bins never actually touch the

ground! So, there is no way a customer's driveway will be scratched, scraped, cracked or dented.

The twin-entry doors are designed not only for walk-in loading, but because their swing-radius is only half the bin-width, the bins can be positioned closer to building and wall structures to facilitate loading them. It's a lot easier tossing items over the edge of a deck into a bin when it's only 4 feet away versus 8 feet away, says Bruce Kozak who operates Bin There Dump That, Weirton Dumpsters. When the customer is done with the bin, they just call for pickup (or they can preschedule pickup at the time of sale). They don't need to be home for the delivery or pickup.

The customer experience with Bin There Dump That starts with a call to one of their friendly and knowledgeable "Dumpster Consultants" (DC) - a free service - who will understand the customer's needs and suggest the most appropriately sized dumpster rental and placement for their project. The total process, including collecting customer information & scheduling of the bin, takes about 5 minutes - same day service is available too!

Bin There Dump That brings-forth the power of its franchise's proven 20 year history and Best Practices, but they are also family-owned and locally-operated. Bruce and Loy were awarded the Franchise's "Award of Excellence" for 2021 – chosen from among several dozen Operators from the USA and Canada.

Operating out of Follansbee, WV, Bin There Dump That, Weirton Dumpsters can be found here: <https://steubenville.bintheredumpthatusa.com/dumpster-rental-weirton>.
